

Sink Worksheet

Please note the standard dimensions of our integral vanities.

Faucet Holes:

- 4" on center
- 1 ½" diameter
- 2 ½" from back edge of sink

Sink Placement:

- Centered on cabinet base, left to right
- Front edge of sink is 3 ½" from front edge of counter surface

Standard Overhang:

- ¾" from cabinet base on each finished side
- 1 ½" from cabinet base on front

In the diagram above, please indicate any changes from our standard vanity, using the guidelines listed below.

1. If the vanity will be installed against 1 or 2 side walls, please mark the respective side(s) with the word "WALL".
2. If you have an alternate faucet pattern, please cross out the faucet pattern on the drawing and include the cutsheet for your faucet with your order.
3. If you are ordering backsplash or sidesplash, please indicate where this will go by marking an "X" on the side(s).
4. If you are ordering a front reveal, please write "Reveal" on the front of the diagram.

If you need to modify any of the standard dimensions, please call us to discuss your plans.
